## Technic Expands Semiconductor Specialty Chemical Manufacturing in the US

Cranston, Rhode Island, USA - Technic announces the expansion of its semiconductor specialty chemical business with the acquisition of a 35,000 square foot facility in Woonsocket, Rhode Island. The new facility is in addition to the three existing semiconductor specialty chemical manufacturing facilities Technic has in France. The Rhode Island facility will be used to meet the growing demand for Technic specialty chemicals in the U.S. semiconductor industry. Technic's goal is to become the global leader in strippers, etchants, and cleaners for the semiconductor industry, with manufacturing sites in Europe, North America, and Asia.

Technic is a global supplier of advanced chemical solutions and controls for the semiconductor industry. The company manufactures a complete line of cleaners, photoresist strippers and metal etchants under the names TechniClean, TechniStrip<sup>®</sup>, and TechniEtch. Technic also manufactures fabrication and packaging chemistry marketed under the Elevate<sup>®</sup> brand name.

For more information on Technic's full line of semiconductor products and advanced analytical controls go to [www.technic.com](http://www.technic.com)

### About Technic

Technic Inc. is a Rhode Island based corporation with over 900 employees worldwide. For 70 years, Technic has been a global supplier of specialty chemicals, custom finishing equipment, engineered powders, and analytical control systems to the electronic component, printed circuit board, semiconductor, industrial finishing and decorative industries. Technic is also a major supplier of engineered metal powders to the solar industry.
